SUMMARY

I am a passionate and creative front-end developer with more than 2 year of experience in building responsive and user-friendly web applications using HTML, CSS, JavaScript, and various frameworks and libraries. I have a strong knowledge of web design principles, accessibility standards, and best practices. Also have some exposure to Back End development with Node Js and Flask

SKILLS

Languages: HTML, CSS, JavaScript, Typescript, Python, C++.

Technologies: Node JS, React JS, Bootstrap, SASS, Tailwind, Version Control

PROJECTS

Web Development — **Virtual Keyboard EN/AR** — https://alielbasuony8.github.io/virtual-keyboard-app/
On-screen keyboard with English and Arabic characters. The app allows the user to type text in either language using the mouse. and switch between the languages using a toggle button

Web Development — **Fork** — https://alielbasuony8.github.io/Fork/
Web app for a restaurant

Web Development — **Furnishverse** — https://alielbasuony8.github.io/Furnishverse/
Web app for a furniture company

Web Development — **Homey** — https://alielbasuony8.github.io/Homey/
Full responsive real state web app.

Web Development — **Audio Player** — https://alielbasuony8.github.io/Music-player/
A web app that allows users to play, pause, skip, and shuffle songs from a playlist. The app has a sleek and modern UI that displays the song title and progress bar. The app also supports keyboard shortcuts and volume control

Web Development — **Keep notes Application** — https://alielbasuony8.github.io/Keep-notes/
A web app that enables users to manage their notes by adding and deleting and editing them. The notes are saved in the local storage of the browser
